Summary of reasons for decision:

The Blu-ray disc contains two versions of the same feature, one of which, 'Seal Team Six: The Raid On Osama Bin Laden' (OFLC 1201047) was previously examined on DVD and classified R13 with the descriptive note "Violence and content that may disturb." That decision was registered on 21 December 2012. Both features on the Blu-ray relate events leading up to the assassination of Osama Bin Laden and both the DVD and Blu-ray contain the same behind-the-scenes featurette.

The second version of the feature is entitled 'The Original Director's Cut: Code Name Geronimo' and is approximately 15 minutes longer than the previously classified version. The content is substantially equivalent, with some new and extended scenes that do not alter the character of the feature. A change to the classification is not required due to the additional content but a different descriptive note is required to reflect the addition of sexual references and highly offensive language.
